Skin Protection

- Children are required to wear a sun safe hat outside in accordance with school policy
- Sunscreen is to be applied to their child by parent/care-giver before preschool
- Written permission for staff to apply sunscreen must be received from the parent/caregiver, including the brand and SPF factor of the cream before staff will assist child in applying
- Staff will assist children with written permission to apply sunscreen at lunchtime.
- Sunscreen provided by the parent/caregiver must be clearly labelled with child’s name.

Hot Weather

When the temperature is over 35 degrees, children will generally be inside. Outdoor play will only occur for short periods in restricted areas, closely supervised by staff eg: water play in the sandpit.

Wet Weather

Wet weather will generally not prevent outside play. The preschool has a supply of wet weather gear for all children to use. Families are asked to bring along pairs of rubber boots.

Policy Update March 2015
